WELCOME

Hello! Our programming team is pleased to bring GlobeScreen Shorts Festival back to *Curzon Sea Containers*, for a second year.

While it is true there are many festivals, at GlobeScreen, we work hard to secure industry juries that can, when time permitting, make a difference to the early careers of next-generation filmmaking talent, by dedicating part of their year to learn more about new talent, in the industry.

Distribution in cinemas is always a challenge to overcome, especially for short films, so I am sure you'd join my colleagues at GlobeScreen in agreeing on this -- the more festivals there are for filmmakers, the better -- when festivals, big or small survive, the opportunities for a film to be distributed theatrically, also survive!

Congratulations to all directors representing films this year. We encourage Londoners to continue coming to the festival, to support participating filmmakers.

Look forward to meeting you at 12th *Knot Restaurant* during the after party.

Kind Regards,

Dara Naficy
